

Mid-year and End-of-year surveys for school partners

Surveys are sent to school partners twice a year in order to garner crucial feedback about their experience with the program.

Why send surveys to partner schools?

These surveys provide valuable information about how school partners are experiencing your program, and can be useful to reference during [mid](http://partners.imentor.org/help/agenda-template-for-mid-year-meetings-with-schools) (<http://partners.imentor.org/help/agenda-template-for-mid-year-meetings-with-schools>) and [end-of-year](http://partners.imentor.org/help/agenda-template-for-end-of-year-meetings-with-schools) school partner meetings (<http://partners.imentor.org/help/agenda-template-for-end-of-year-meetings-with-schools>). The responses can also help you prioritize areas for further staff training, adjust pair support, and create new communication strategies.

How will these surveys be administered?

Your partnership manager will provide you with a survey link and email template that you can send out to the staff at your school. After the surveys are complete we will provide you with all the data from the responses. The survey responses will also inform school partnership analysis in Mid-Year Briefs and End-of-Year Reports.
