

iMentor Curriculum Overviews

This article provides links to curriculum overviews of iMentor's College Transition Program and College Ready Program. The overviews include information about each specific program, curriculum philosophy and structure, and curricular objectives. These overviews can be used to distribute to partner schools and stakeholders in order to demonstrate an in-depth overview of the iMentor curriculum.

Curriculum Overview

College-Transition Program

iMentor's research-based curriculum guides mentor-mentee interaction toward five goals for iMentor's high school participants to pursue and achieve success in higher education:

Mentor-mentee pair develops a **strong personal relationship** that positions that mentoring relationship to thrive in high school and college

Mentor-mentee pair **deepens and personalizes the student's post-secondary education plan** and pathway to that student's highest career aspiration

Student develops the **college knowledge, skills, and mindsets** needed to succeed in college and career

Student **effectively navigates the college process**

Mentor-mentee pair feels a **connection to the broader iMentor community** and engages in iMentor initiatives beyond the pair relationship
